RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

This is in response to the Restriction Requirement mailed May 26, 2004, where the Examiner requested election of one of the following groups:

Group I (claims 1-29), directed to a peptide and a pharmaceutical formulation comprising the peptide; and

Group II (claims 30-42), directed to a method of inhibiting hypoxia-inducible factor 1 alpha ubiquitination in a mammalian cell comprising contacting a mammalian cell with such a peptide. Applicant notes that claims 43-49 are not referred to in the Restriction Requirement. As claims 43-49 are also directed to such a method, for purposes of this Restriction Requirement Applicant submits that they are members of Group II.

Applicants provisionally elect, with traverse, the claims of Group I (claims 1-29).

The Restriction Requirement is traversed on the basis that Restriction Requirements are optional in all cases. M.P.E.P. § 803. If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it arguably may include claims to distinct or independent inventions. M.P.E.P. § 803. It is respectfully submitted that the search and examination of the claims can be made without serious burden on the Office. Thus, reconsideration and withdrawal of the Restriction Requirement is respectfully requested.
